Cardinal Health™ Sterilization Wrap

Your trusted source for ease and assurance

Everything you need,
wrapped in a single solution

Every day, you're tasked to do more with less. To improve productivity with less time, budget and staff. And do it all while you strive to keep your patients safe and improve the quality of care.

That's why we created a new choice in sterilization wrap: a full selection of products that are durable, reliable and cost effective.

All the selection you want
Whatever your clinicians need, now you have a single product line that can take care of it all. Choose the wrap that best meets your goals of maximizing efficiency, safety and quality of care.
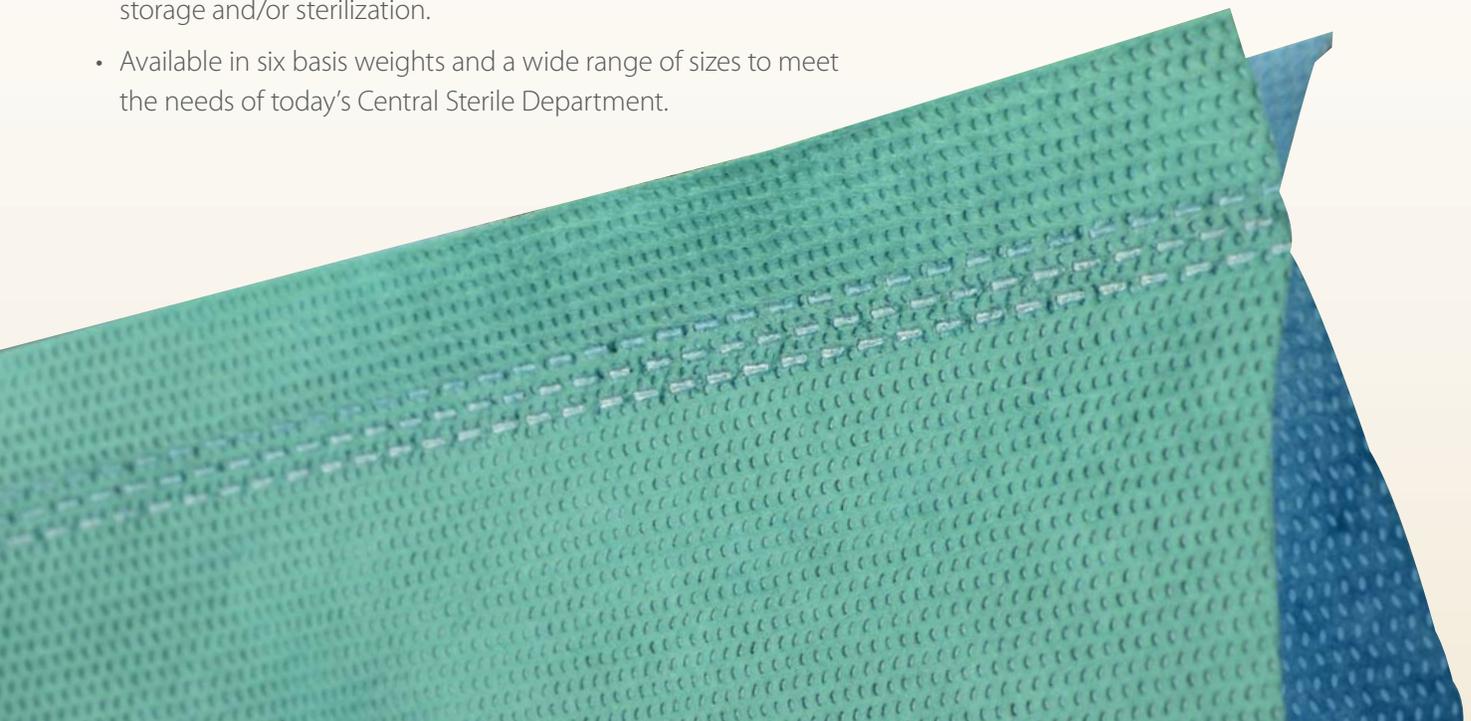

Two Color:
The blue and green layers help make it fast and easy to differentiate, identify and inspect trays

Single Layer:
Supports sequential wrapping methodologies

- Made from SMS polypropylene, non-woven material for strength and sterility maintenance.

- Designed with a simple, "cross-stitch" bond pattern for clear, visual feedback of breaches that may occur during handling, storage and/or sterilization.

- Available in six basis weights and a wide range of sizes to meet the needs of today's Central Sterile Department.

Cardinal Health™ Sterilization Wraps

Two Color

- Made from two layers of SMS — one layer blue, the other green — bonded together along opposing sides

- Delivers the protection of double-wrapping in a single sheet (simultaneous wrapping) — resulting in time and productivity efficiencies when wrapping and opening[1,2]

- Select the color you want — blue or green, to help differentiate and identify instrument trays by type or use

Single Layer

- Made from one layer of blue SMS
- Supports simultaneous double or sequential wrapping
