

AirLife™ Misty Fast™  
small-volume nebulizer

# Support your patient's next breath while reducing treatment time

## **AirLife™ Misty Fast™ disposable SVN**

The AirLife Misty Fast™ small-volume nebulizer (SVN) is a small volume, high-efficiency air entrainment nebulizer that delivers comparable results to the AirLife Misty Max 10™ nebulizer, but in half the time. The one-piece jet design provides efficient, high output rates for fast treatment times and consistent medication delivery. Nine kit configurations accommodate your patient's aerosolization needs, and all kits include our crush-resistant O<sub>2</sub> tubing.

## The AirLife Misty Fast SVN offers the following key benefits:

- Treatment requires half the time of the AirLife Misty Max 10 SVN
- Proprietary swivel mouthpiece helps enhance patient positioning
- Unique, integrated jet and baffle design provides medication delivery consistency and reliability
- Clear base with visible graduations facilitates medication loading and aerosol delivery visualization

### AirLife Misty Fast SVN (50 per case)

Cat. no.	Product description
<b>FN2431</b>	Misty Fast SVN and 7' O <sub>2</sub> tubing
